International Diamond Inc.

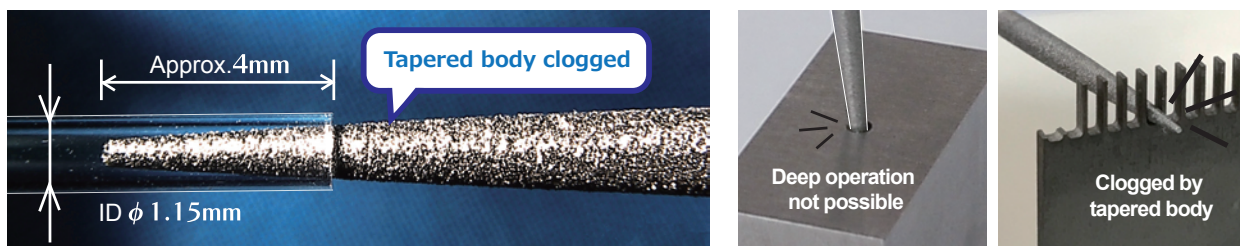

Features

- ① Excellent sharp edge, capable of process in a very narrow area
- ② A wide range of applications in deeper internal process, thanks to straight part as long as possible within diameter 1
- ③ Life twice as long as before, due to originally developed double-end electrodeposition
- ④ Diamond file's protrusion adjustable to meet your work
- ⑤ Small diameter file but rigid

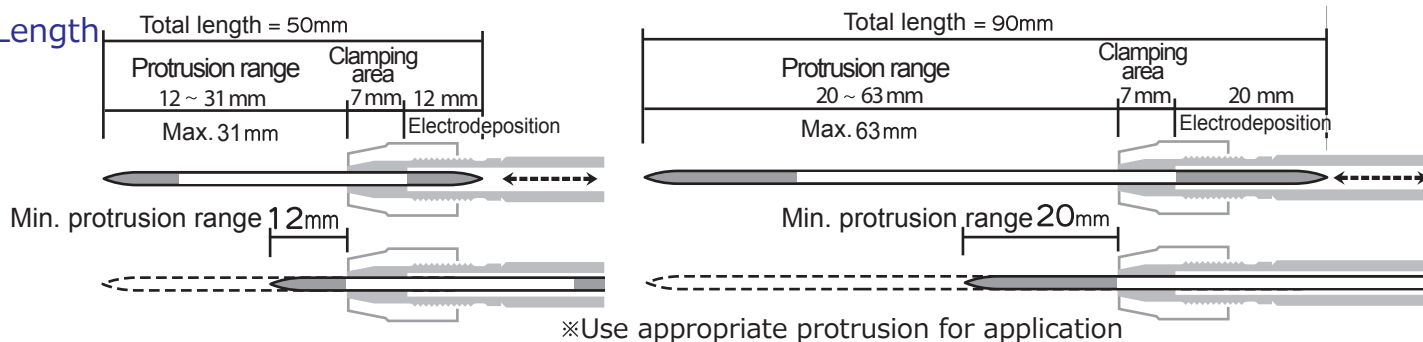

Double End Diamond File

General file in market

Lineup

Good value double end

Type	Dimension			Grain size	Q'ty	Article No.
Short (50mm)		D	φ 0.9mm	#400	10 Pcs	DEO400S-X
			φ 1.0mm	#200	10 Pcs	DEO200S-X
Long (90mm)		D	φ 0.9mm	#400	10 Pcs	DEO400L-X
			φ 1.0mm	#200	10 Pcs	DEO200L-X
Long (Designed only for through-type pin vice)				PV92		

Precautions

- ① Be careful not to get injured by a double-ended file
- ② Firmly and precisely fix a file to the chuck center of pin vice
- ③ Do not tighten a pin vice at diamond electrodeposition, to prevent damage on the pin vice.
- ④ Use a through-type pin vice for Long file (90mm)
- ⑤ Remove a file from a pin vice and store it in the case when not in use
